

How to Use Secure Note

Secure Note is your private, encrypted space in Loop8 for storing text notes. It is perfect for sensitive information like account numbers, personal reminders, or anything you want protected with Face ID or Touch ID. Your notes stay secure and always within reach. This guide will show you how to use it.

Step 1: Open the Loop8 App

Launch Loop8 on your mobile device and verify your identity with Face ID or fingerprint.

Step 2: Tap Secure Note

On the home screen, tap the Secure Note button to enter your secure note space.

Step 3: Write Your Note

Start typing any important details—password hints, personal reminders, or private information—you want to keep safe and accessible only to you.

Your Private Space Awaits!

Your Secure Notes are fully encrypted and linked to your biometric login, so only you can unlock and view them. Each note remains protected within the Loop8 app, giving you a private, secure space for your most confidential information.

If you have any questions or need a hand, our team is always here to help.

Enjoy your safer, simpler digital life with Loop8!
