

Installation Guide for Mobile App

Thanks for choosing Loop8! You're just a few quick steps away from safer, smarter protection across your devices. Follow the guide below to get set up.

It only takes a few minutes.

Let's Get You Set Up

Step 1: Download the Loop8 Mobile App

- 1.1. Go to the App Store (iOS) or Google Play Store (Android).
- 1.2. Search for Loop8 and tap Download.
- 1.3. Once installed, open the app and create your account.

Step 2: Download the Desktop Installer *(Note: The installation package includes both Loop8 and MySafe.)*

- 2.1. On your computer, visit loop8.ai or l8p8.com.
- 2.2. Click Download in the top-right corner.
- 2.3. Allow the installer to download, then unzip and open the file.

Step 3: Pair Your Devices

- 3.1. In the desktop installer, follow the setup until you reach Step 2.
- 3.2. Use your mobile app to scan the QR code shown on screen.
- 3.3. This pairs your mobile device with your desktop app securely.

Step 4: Install the Browser Extension

- 4.1. Continue to Step 3 in the installer.
- 4.2. Select your preferred browser to download the Loop8 extension.
- 4.3. You'll be redirected to your browser's extension store.
- 4.4. Click Add Extension to complete installation.

Step 5: Start Using Loop8

- 5.1. You're now ready to use Loop8 across mobile and desktop.
- 5.2. Import passwords from browsers or other managers.
- 5.3. Save new logins as you browse – Loop8 will autofill securely.
- 5.4. Manage your credentials anytime through the mobile app.

That's it! You're now ready to use the Loop8 Mobile App!

You're now protected with seamless, private password management across your devices. If you have any questions or need a hand, we're here to help.

Enjoy your safer, simpler digital life with Loop8!
